

# DATA STORAGE ENCRYPTION FOR NATO

## Hard Drive Encryption for Protecting NATO Cosmic Top Secret through Unclassified Data-At-Rest

NATO nations face data breaches every month, putting NATO's classified data at risk. Viasat data-at-rest security hardware is NATO-approved to encrypt data of any classification level from Cosmic Top Secret to Unclassified, rendering the hard drive protected from compromise. With hardware-based self-encrypting technology, Viasat Eclipt hard drives deliver higher security with better performance than software-based encryption. In the event of computer theft, loss, or attack, ViaSat ensures that your data is completely secure.

With hard drive encryption from Viasat, you can reduce the classification level and handling requirements of your data when your computer is powered down, freeing you from the logistics associated with storing and transporting classified data. Viasat's data storage encryption technology is available in a variety of configurations, including internal and external hard drives and inline media encryptors. Simply choose the optimal Eclipt protection level and form factor to meet your data-at-rest security needs.

### Which data storage encryption device is right for you?

CLASSIFICATION LEVEL	Encrypted Data is Rendered Unclassified		
NATO SECRET	✓		
NATO CONFIDENTIAL	✓		
NATO RESTRICTED		✓	
NATO UNCLASSIFIED			✓

  

<p>↓ REDUCTION IN PROTECTIVE MARKING BY ENCRYPTION</p> <p>✓ RECOMMENDED CHOICE</p>	<p><b>ECLYPT 600</b> (AVAILABLE IN CORE &amp; FREEDOM)</p>	<p><b>ECLYPT 300</b> (AVAILABLE IN CORE &amp; FREEDOM)</p>	<p><b>ECLYPT FREEDOM 100</b> <b>ECLYPT CORE 200</b></p>

## DATA STORAGE ENCRYPTION FOR NATO

### Inside your computer

#### EMBEDDED DATA PROTECTION IN YOUR COMPUTER'S CORE

##### Eclipt Core Internal Hard Drives

Direct encrypted replacement for a standard computer internal hard drive.

- › Protects NATO Secret and Below data; encryption reduces the protective marking and handling requirements of the data
- › Available in protection levels 600, 300, and 200 to match your authentication and NATO data classification needs
- › Available in 2.5 and 3.5inch
- › Secan Certificate number MCM-0235-2021

### Outside your computer

#### THE FREEDOM TO WORK ON THE GO AND SWITCH COMPUTERS WITH PORTABLE DATA PROTECTION

##### Eclipt FREEDOM EXTERNAL Hard Drives

Direct encrypted replacement for a standard computer internal hard drive.

- › Protects NATO Secret and Below data; encryption reduces the protective marking and handling requirements of the data
- › Available in protection levels 600, 300, and 100 to match your authentication and NATO data classification needs
- › Secan Certificate number MCM-0235-2021
