Maritime internet for leisure yachts

High-performing internet you expect on land. Now at sea.

Viasat™
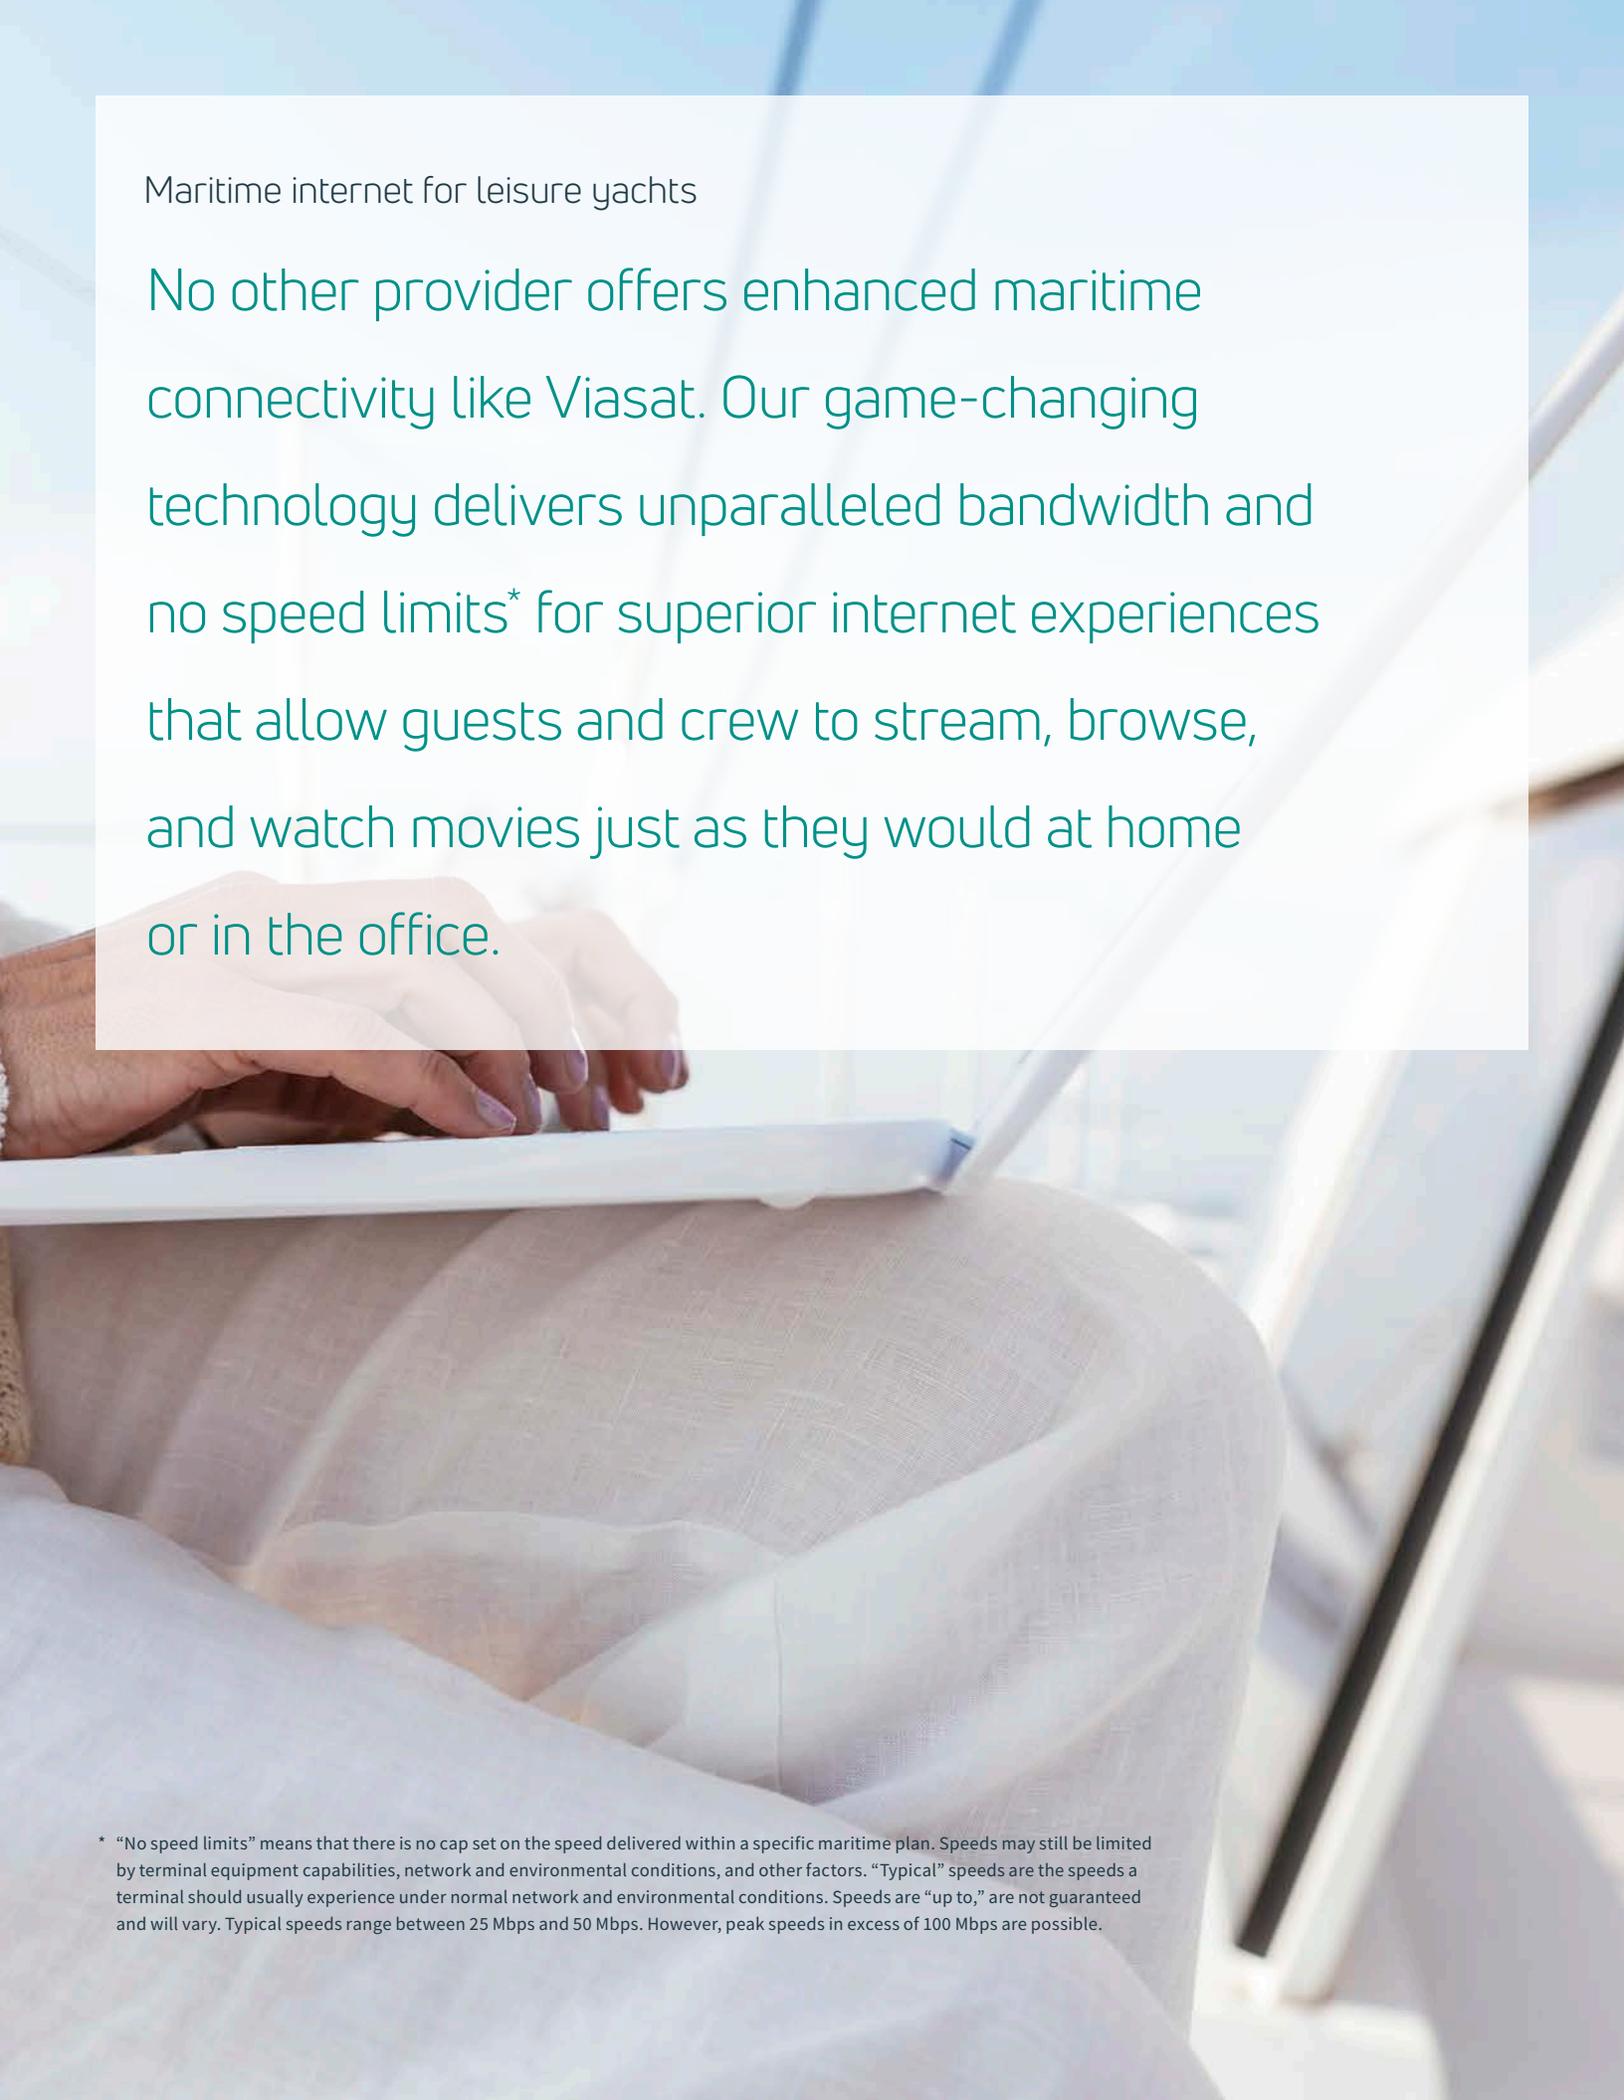

Maritime internet for leisure yachts

No other provider offers enhanced maritime connectivity like Viasat. Our game-changing technology delivers unparalleled bandwidth and no speed limits* for superior internet experiences that allow guests and crew to stream, browse, and watch movies just as they would at home or in the office.

---

* "No speed limits" means that there is no cap set on the speed delivered within a specific maritime plan. Speeds may still be limited by terminal equipment capabilities, network and environmental conditions, and other factors. "Typical" speeds are the speeds a terminal should usually experience under normal network and environmental conditions. Speeds are "up to," are not guaranteed and will vary. Typical speeds range between 25 Mbps and 50 Mbps. However, peak speeds in excess of 100 Mbps are possible.

Changing the game for maritime internet

No other provider can bring high-speed, reliable internet to maritime like Viasat.

1

Advanced technology

Our powerful, high-capacity satellite network means more speed, data and performance while you cruise.

› No hard data caps**

› No speed limits

› An at-home internet experience at sea

2

Unrivaled connectivity

We deliver fast, seamless internet for everyone on board.

› Stream, browse, connect without interruption

› Pay a fixed monthly price

› Operates on proven Cobham SAILOR equipment

3

Best internet experience

Today's guests expect the best – and we help you deliver it.

› Keep everyone connected to work and family

› Provide access to HD and 4K video streaming, movies, TV and sports

› Get separate connectivity links for guests and crew

** Depending on the specific Viasat maritime plan, once you reach the data consumption threshold for that plan, your data will be prioritized behind other customers during network congestion. Please see page 4 for further details.

Equipping your leisure yacht

Easy to install, low-profile equipment delivers more performance, reliability, personalization and everything great maritime internet should bring to guests and crew.

SUPERYACHTS (SAILOR 900)

› Ideal for superyachts and large leisure yachts

› 103 cm size

› View specs: SAILOR 900

MIDSIZE YACHTS (SAILOR 600)

› Ideal for midsize leisure yachts

› 65 cm size

› View specs: SAILOR 600

Viasat Marine Access System

› Fully managed on-board networking solution

› Enjoy unmatched speeds from Viasat's next-generation satellite technology

Leisure plans tailored for you

Viasat Maritime airtime plans are tailored to meet your specific needs. Whether you have 5 guests and crew on board or over 24 guests and crew, Viasat has a plan suited for you!

Each one of your guests and crew will have the same at-home internet experience while at sea. Everyone gets to be connected!

All plans feature no hard data caps, no speed limits and no overages. Remove any uncertainty about your airtime bill by receiving a fixed monthly price. We offer maximum flexibility with our Quiet Time plan for when the yacht is not in use.

Viasat brings powerful and high-performing internet service without speed limits for an unrivaled connectivity experience at sea. Our high-capacity satellite network means more speed, data and performance while you cruise.
